

HekTik Global Community Prosperity Blueprint

"Global Security. Universal Prosperity. Zero Cost for Life."

1. The Global Ecosystem

HekTik is a global community-driven safety and prosperity initiative sponsored by **Sabre Products** and facilitated by the NPO-Registered **Ubuntu Charity Alliance (UCA)**.

- **The Hero Product:** The HekTik App (powered by Sabre SOS).
- **The Strategy:** A two-tier global approach that allows anyone to start for free, providing a pathway to professional-grade safety and marketing tools that pay for themselves through community participation.

2. Product Access & Tiers

4. The "Zero-Cost-for-Life" Value Proposition

This is a rare global opportunity to build residual income and increase your security at zero cost for life. Your community rewards cover professional product costs; thereafter, you can withdraw additional funds. Introduction of others is optional but exponentially speeds up your rewards while helping your community become safer and more financially secure.

5. Rewards, Compensation & Distribution

All membership fees are paid to UCA, which facilitates reward payments as **Monthly Grants**. Revenue is distributed via a **33.3% / 66.7% split**:

- **33.3% to Sabre Products:** Supports monthly operational costs, software maintenance, and infrastructure.
- **66.7% to the Multi-Level Reward Program:** Allocated to members based on total activity.

Incentive Structure:

- **Foundation Grant (Fast Start):** A one-time "Launch Bonus" for your first 3 direct clients, ensuring your first month is self-funded.
- **Binary Reward Pool:** Members earn 10% of the sales volume generated in their "Lesser Leg."
- **Forced Lesser-Leg Balancing:** The system automatically places new sign-ups in your weaker leg to ensure balanced, stable growth and maximum member support via spillover.
- **Withdrawal Fees:** A flat 13% handling fee is deducted only when withdrawing funds from the back office to an external bank account. Funds left in the system for subscriptions are never charged this fee.

6. Global Compliance & Sustainability

- **Income Declaration:** Members are responsible for their own tax affairs. UCA payments are classified as grants; please consult your local tax authorities.
- **Sustainability:** By leveraging Sabre's global infrastructure and UCA's social-impact framework, HekTik creates a self-sustaining loop of security and wealth.
